

BlackBerry® Enterprise Server In a Box

SteelWorks® *Mobile* BlackBerry® Enterprise Server Appliance 1U standard

OVERVIEW

SteelWorks® *Mobile* BlackBerry appliance is the single best way to implement a BlackBerry Enterprise Server (BES) environment.

SteelWorks® *Mobile* is an integrated server appliance that enables virtually any size organization to implement a BlackBerry Enterprise Server at a fraction of the cost, time, and resource commitment.

SteelCloud worked closely with Research In Motion (RIM) to create this unique “BES in a Box” appliance that will allow the implementation of a BES environment in under 30 minutes.
